For President of the United States— Vote 27 X Burton, Theodore E., of Ohio

For president of the United States we need a man we know and a man who knows us.
The man of the hour, to unlock Oregon's resources and prosperity is in our midst.
Burton's support gave Oregon the appropriation that opened up Crater Lake National Park, one of the natural wonders of the world.
He knows our timber resources.
Burton has visited Oregon repeatedly in the interest of the Columbia River and has fathered its development at all times.
He knows our agricultural possibilities.
Senator Burton favors preparedness that will protect American interests wherever they are.
When peace comes to Europe, the next world's throes will be for commercial conquest and there is no statesman today who knows what America can do so well as Senator Theodore E. Burton.
There is no statesman who can lead it so well. He has participated in the republican legislation that produced twenty years of prosperity. He was a companion of William McKinley, the martyr, and of John Sherman, who fathered Trust Legislation.
He is an authority on Finance, Commerce and Foreign Relations.
Vote 27 X Burton, Theodore E. of Ohio

We advise that Carl's Little Liver Lifter be kept in every home. We cannot recommend these pills too highly. We caution our patrons against the free and indiscriminate use of laxatives and purgatives. 25c. Star Drug Co.
